#### THRIVING INDUSTRY.

#### Carbondale Has Next to the Largest

Silk Mill in America. The Carbondale silk mill of Klots Brothers, which has been so much discussed in the past, is infrequently spoken of nowadays. The industry, however, is in a thriving condition, and the mill operations are going on more smoothly than ever. For some time great difficulty was experienced in getting help and this led to the board of trade's abandonment of other projects. Secretary Trautwein declared that this industry must be provided with hands before efforts will be made to secure other enterprises. The hands have been provided and there are now 483 on the pay roll. The mill is working night and day, and its capacity is the second largest in America. immense output has been marketed during the dull season, when many mills throughout the country were shut down. This was due largely to the result of improved machinery which winds the bobbins more loosely than is general, preserving the clasticity of the silk, which is a great advantage to the weavers. It will stretch six inches to the yard. The huge slow motion Hamilton-Corlis engine of about 400 horse power that drives the machinery, runs nearly twenty-four hours a day and keeps in good repair, which justifies its purchase at a cost considerably in excess of that originally estimated for power.

SECOND MORTGAGE BONDS. These facts ought to be reassuring to the bond holders who were at one time discouraged and seeking opportunity to transfer their investment at figures below par. The holders of second mortgage bonds now see the wisfom of holding on as they were advised to do by the local trustees who permitted expenditures which necessitated the issuing of about \$22,000 first mortgage bonds-a transaction the or-

ginal investors had not anticipated. In this connection it will interest many to know that an ordinary wagon load of raw silk, as is frequently seen on our streets, is worth about \$5,000 It costs nearly five dollars a pound and to represent the sum mentioned the load would have to weigh little more than half a ton.

It is also a peculiar fact-indicative of old world lack of enterprise-that the Italian and Japanese exporters of this silk send it out in skeins, having troublesome spindle impressions where the natural gum sticks the strands and which the throwsters would give much to avoid. Silk men say that if Americans had charge of that work the difficulty would be overcome without de-

NEARLY \$5,000 A MONTH.

The benefit of this industry to the community may be realized by considering the fact that it pays to its 483 employes nearly \$5,000 each month. The wages of the operatives—girls and boys
—range from \$5 to \$25. When the score of higher salaried attaches are considered it will be seen the average of \$10 a month is conserative. As the nands improve their definess they receive more money without increasing

#### Deyampert Stephenson Disappears While Under . "est.

Constable Neary returned Wayne county last evening with Deypert Stephenson after whom h spent the greater part of the day scouring the rural districts. Stephenson is a painter of this city and it is alleged that on the twenty-fourth day of this month he entered the grocery store of Harry Dolph on Lincoln ave nue and while the latter was down cellar stole two of a package of excursion tickets to Cooperstown. A warrant was issued and Constable Neary arrested him Saturday near Forest City. He was arraigned for a hearing before Alderman Jones Saturday evening at five minutes to six o'clock. The constabel left the office to get some witnesses and while the alderman was engaged with other business the prisoner

The constable soon returned and thinking Stephenson had made for the Erie train he rushed to the Union station. Failing to find him he rushed to the foot of No. 1 plane and boarded the Gravity passenger, going as far as No. 4 without getting any trace of the

Yesterday morning he learned that when Stephenson left the alderman's office he went to the city station and

keeps the upper hand of his work, because he is strong, capable and energetic. Dr. Pierce's Golden Me dical Discovery has brought the best kind of prosperity to thousands of weighed down, over burdened men and women by giving them the physical strength and stamina to carry on their work forcefully and easily.

"For the last three years," says Mr. J. C. Morgan, of Monongah, Marion Co., W. Va., in a letter to Dr. Pierce." I have been a constant sufferer from majeration complicated with complaints that generally accompany such cases. Always after taking there would be a formation of gas and a bravy load in my stomach. I would belie up my wood after eating, bowels were very irregular, I would imagine I saw objects floating before my orgs. I had pain across my back. About Docember, "abs. I did so, and am happy to alate I experienced most gratifying results, as all the unpleasant feelings have entirely left me. jumped the passenger train for the Union station where he was lost sight of. Knöwing he had relatives in Wayne county the constable went to Waymart and employed Mr. Gruver and his speedy team. After much hard driving and the searching of several houses Constable Neary reached a grocery where twenty minutes be-fore Stephenson had purchased and consumed a can of salmon and some crackers. Continuing his pursuit he soon came to a barn where he had reason to believe his man had stopped. Disguising himself in Mr. Gruver's hat and coat he went around the building and found Stephenson comfortably seated in the shade, a very much surprised fugitive.

The capture was made without further difficulty and last evening Alderman Jones committed the prisoner in default of bail. He will be taken to the county jail this morning,

ast Sunday at Lake Winola. Arnold Zurfleih, one of the cottagers of Lake Sheridan, reported seeing a wild cat in the heavy timber, just back of the cottages on the Scranton side of the lake one night last week. The report quickly spread and in a time an armed posse, that would have put Blanco's army in the shade, was couring the forests with Winchester rifles and a kennel of bloodhounds, the search being kept up all night but without success. This same ferocious specimen of the cat family is said to have made night hideous with its

howls for some time The Baptist and Methodist Sunday schools will unite in their annual picnic, in the Academy grove next Friday.
